Info text:

Warning: Never leave burning candle unattended.

Remove all packaging before use. Cut the wick if it exceeds about 8mm in length. Always use a heat resistant surface away from flammable objects, children, animals and air flow. Do not leave matches or other objects on the wax. Do not leave the candle when it burns and always leave in a vertical position. If the candle burns down abnormally, cover it with a damp cloth, never use water. May produce an allergic reaction.

FROM SOIL TO FORM

- Scent Diffuser
- Dimensions: H: H4.4 W11.3 cm
- 9 soil balls

Info card:

From Soil to Form is a natural room diffuser made out of Korean soil and wood. The diffuser consists of a pinewood box that holds nine red soil spheres which upon oil fragrances are to be dropped. The red soil has natural features that gently emits the applied fragrance, as well as helping to balance the humidity of a room. It may be used indefinitely to disperse the carefully crafted Apothecary scents. From Soil to Form is created in collaboration with the creative branding Studio; Be My Guest, based in Seoul.
