

# AAC 223

PRODUCT FACT SHEET

## AAC 223

DESIGN BY HEE WELLING & HAY, 2022

The AAC 223 fuses the natural elegance and classic expression of the four-legged wooden base with the softness of the upholstered shell. Retaining the fundamental idea shared by the AAC family, this model is characterised by a curved shell with a slightly higher back. Designed with optimal functionality in mind, the shell construction offers a deep, generous seat that combines inviting aesthetics with a high level of comfort, whilst the lower armrests provide good support and enable the chair to fit underneath a table or desk. The wooden base brings character and stability, and is available in different finishes, with the shell offered in a variety of regular and quilted upholstery options. The multitude of variants and design combinations give this series great versatility in a wide range of corporate, public, and private contexts.

### HIGHLIGHTS

- Part of a multi-functional family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman and a sofa.
- The curved shell has a slightly higher back and a deep generous seat.
- The shell is made from 100% post-consumer recycled plastic and comes in three colours.
- Lower armrests offer good support, whilst enabling the chair to fit underneath a table.
- Available with full upholstery, a standard and a soft quilted version in all standard fabrics and leathers.
- The plywood base comes in various colours and finishes.
- Other base options are: Solid wood base, 4-star swivel base, 4-leg steel tube base and 5-star swivel base with wheels and gas lift.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

## SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
