IMPORTANT INFORMATION: The instructions for care and cleaning are only indicative.

OUT OBJEKTE UNSERER TAGE disclaims any liability in relation to the use of the following care and cleaning instructions. Any use is at all times at the customer's own responsibility.

GENERAL NOTES

Some of the objects from OUT OBJEKTE UNSERER TAGE are made of powder-coated steel. The powder coating serves to protect the metal and is significantly less susceptible to scratches and at the same time more resilient than painted metal.

In the color luminous red, the objects develop a particularly impressive effect. The color is extremely intense and radiant. Since the color is not UV-resistant, a natural patina and color variance develops over time, which makes every metal object in luminous red a unique piece. This creates light color impressions that are sometimes more intense - sometimes fading - a lively look is created. Direct sunlight intensifies this effect.

CARE & CLEANING

For cleaning, we recommend a soft cloth in combination with a neutral, mild detergent. Remove soap residues immediately with a dry cloth. Do not use stronger solvents (e.g. acetone) or scouring milk or sponges. These attack the surface and cause scratches.
